

Borough of Poole Sunflower Competition

Who can grow the tallest sunflower and win a brand new scooter?

How a plant grows from a seed

© 2006 Encyclopaedia Britannica, Inc.

2. When you have a sunflower you need to measure how tall it is.

1. Plant the seed.
Don't forget to water it.

3. Take a photograph and send it to us.

Many thanks for taking part in our Walk to School competition in 2018. We hope you enjoyed it and will continue walking, scooting or cycling to school after the half term break.

Each child will receive a sunflower seed to plant from their class Walk to School pack. Please plant the seed, keep it watered and watch it grow. When it flowers please measure it from the base of the soil to its highest point and take a photograph of it.

Please email the picture and measurement by 1st September 2018 to:-

cycling@poole.gov.uk

We will choose two winning entries who will each receive a fantastic new scooter.
