

Children in Victorian Times

Maths

In Maths this half term we will be focusing on angles including types of angle and measuring angles. We will also look at translating shapes on a grid before moving on to measurement.

Science – Flowering plants

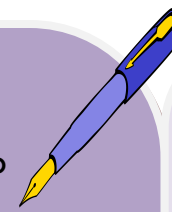

- Plants produce flowers which have male and female organs.
- Insects pollenate some flowers and how this is done.
- To know that seeds can be dispersed in a variety of ways
- To consider conditions that might affect germination
- Know about the life cycle of flowering plants.

English

Speaking & Listening: To use relevant strategies to develop vocabulary. Participate in discussions, presentations, performances, role play, improvisations and debates.

Reading- Looking at a variety of fiction and non-fiction texts. Focus on developing vocabulary, scanning and skimming for retrieval and inference questions. Building independence with these skills.

Writing: We will be writing a formal letter and informal letter in role. We will be developing our descriptive writing through short burst tasks. We are also writing an explanation report.

ART/Design

Cooking – Create an afternoon tea to enjoy.

R.E.

Easter:

Make links between belief and life
Compare your own and other people's responses to questions.
