

Domestic Abuse

Domestic Abuse Alerts

The Designated Safeguarding Leads (DSLs) receive a notification from Bournemouth Christchurch and Poole Children's Services when Police have visited a home in respect of a Domestic Abuse incident where a pupil of the school resides. This alert only contains the address and name of the pupil concerned. Following the receipt of such an alert, the DSL will liaise with relevant staff to ascertain our knowledge of the circumstances in the family home. They will then contact Children's Services if there are any concerns to seek further information about the incident and share information.
